

TRANSPORT-STORAGE PLATFORM **TSP-801P-2000x1200**

The Platform is specialized equipment designed for large warehouses with vertical layout. It is suitable for storage and sorting of large size products and blanks - mattresses, pillows, fabrics, foams, etc., with a total weight of up to 800 kg. Despite the large overall dimensions, the structure is a stable and allows to easily move and lift to great heights using standard lift equipment.
