

TRANSPORT TROLLEY WITH MOVABLE SHELVES

TTS-303Zn-800x600x1650-PATH

The Transport trolley is a specialized product designed for convenient sorting and distribution of utensils and accessories in boutique confectionery production. The movable shelves provide the opportunity to adapt the arrangement to the needs of each workshop in the chain. The additional partitions on the front shelves prevent the accessories from falling out and allow free movement of the trolley on sloping surface. The product is zinc-plated and therefore corrosion and chemical resistant. The wheels are non-marking, made of nylon with gray polyurethane tread.
